

H07V-K

INFORMATION

Applications	Suitable for fixed installations protected wiring in homes, stores and offices, electrical control panels and lighting.
Standard	UNE-EN 50525-2-31 IEC 60227-3 IEC 60332-1-2 UNE - EN 60332-1-2 (Flame propagation)
Conductor	Wire Class 5 according to UNE-EN 60228. IEC 60228
Section	1,5 to 120 mm ²
Tensión nominal U₀/U	450 - 750V
Minimum temperature test	-15°C
Operating temperature	70°C
Loop	5D
Insulation	PVC
Printing	AENOR <HAR> PEVI H07V-K
