

# RV-K

## 0,6/1KV

### INFORMATION

<b>Applications</b>	Flexible cable for fixed installation intended for the transport of energy and industrial indoor and outdoor connections in low voltage installations. Its flexibility makes it a special cable for installations with complex paths
<b>Standard</b>	UNE 21123-2. UNE-EN 60332-1-2: (Flame propagation), IEC 60332.
<b>Conductor</b>	Flexible copper class 5 according to UNE-EN 60228. IEC 60228
<b>Tension nominal U<sub>0</sub>/U</b>	0,6/1kv
<b>Tension test</b>	3.500V AC
<b>Minimum temperature test</b>	-15°C
<b>Operating temperature</b>	90°C
<b>Color</b>	Black
<b>Interior colors</b>	Color according to HD 308.
<b>Insulation</b>	Insulation: Cross-linked polyethylene XLPE type DIX3, 2nd Table UNE-HD 603-1. Cover: PVC according to UNE-HD 603-1 Table 4a Type DMV-18.
<b>Minimum radius of curvature Cable unarmed D* &lt; 25</b>	4D
<b>Printing</b>	RV-K 0,6/Kv PEVI FLEXIBLE (NgS) mm <sup>2</sup> Año Mes.
